

The #1 Catcoin
arriving to the BSC
for good

**Rocky Neco. The #1 Catcoin coming
to Binance Smart Chain.**

The time for Doge dogs is over. Now it's time for Rocky Neko to impose
MEOW.

1. What is Rocky Neko's philosophy?

Rocky Neko is the crazy cat of good luck who always supports
the best financial causes for the benefit of those in need.

2. How does the Rocky Neko MEOW Token work?

When you have Meow Tokens, you automatically get the
rights to participate in the Rocky Neko cat crypto lottery. The
draw will be held once a month among the token holders
who acquired it in the pre-sale and sale stages. The MEOW
token gives you the opportunity to participate in all draws as
long as you have it in your wallet. To improve your chances
of winning, you can always buy additional MEOW tokens.

3. About the draws

The amount of resources collected in the Rocky Neko raffle will be published on the official website in real time. The prize will be allocated in our Binance Smart Chain lottery smart contract through an algorithm, which will randomly select the winning wallets. The winning wallets will be published on the official Rocky Neko Crypto website. Transactions will be recorded in the Smart Chain Explorer (BSCScan).

Our reward pool will contain a total of 180,000 MEOW tokens which will be distributed among the winners. The odds of winning in each draw will be based on the balance of MEOW tokens of the participating wallet, without considering the tokens previously assigned as prizes. Only MEOW tokens acquired in the pre-sale and sale will be taken into consideration. The Rocky Neko project development team wallets will not be able to participate.

The only requirement to participate in the Rocky Neko raffles is to buy MEOW tokens and hold them in your wallet, you do not have to do anything else to participate and win.

The amount of each prize will correspond to 10% of the prize pool at the time of executing the draw that will be held monthly. In the case of our first draw, this prize will be approximately 700 BUSD or the corresponding amount raised, but we consider that the income of the participants will increase this prize in subsequent draws, the prize will be automatically transferred to the winner's wallet.

3.1 Who can buy the MEOW Token?

MEOW Token can be acquired by all those who want to be rewarded for good fortune while supporting a cause in benefit of the most defenseless. Our abandoned dogs and cats.

Our MEOW token, being part of the metaverse of the Mayan underworld called HALLS OF XIBALBA, will provide preferential minting rights for NFTs in the execution of Staking on digital and physical properties, as well as preferential access to our Marketplace of properties and collections.

3.2 How can the MEOW Token be purchased?

The MEOW Token can be purchased directly on the Pancake Swap Decentralized Exchange and through the official website of the Rocky Neko Crypto project. Our official page will have a SWAP service that will allow you to exchange the MEOW token for BNB or BUSD.

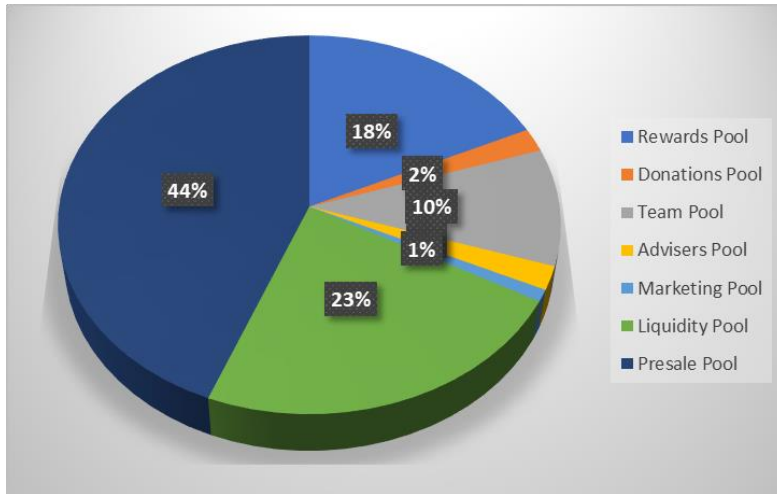

4. Pools and features of the MEOW Token:

Our tokenomics is designed to give a stable floor, marketing resources and liquidity for the growth of the project.

Total Supply: 1 Million MEOW Tokens.

The project considers the distribution of income from the sale of Rocky Neko MEOW Tokens in 5 pools:

- a. Rewards Pool: Collect resources to reward the winners.
- b. Donation Pool: Collect resources to support shelters of cats and dogs.
- c. Team Pool: Its purpose is to allocate resources to the team as compensation for its creative and artistic, financial, technological and administrative activities.
- d. Liquidity Pool: Will provide liquidity to the token MEOW to ensure trading. Liquidity will be blocked for a period of 6 months. We have implemented automated self-liquidity mechanisms at the time of the purchase and sale of the MEOW Token. Your funds will be used to support the financial viability of the Rocky Neko raffle project as well as the Mayan underworld metaverse called HALLS OF XIBALBA. MEOW token holders will have access to free gifts and discounts on collection and service releases to be announced soon.
- e. Presale Pool: Its purpose is to set aside the tokens that will be assigned in presale at a preferential price.

5. Commissions (Fees) generated by the purchase and sale of the MEOW token will be 2% on purchase, 8% on sale and will be distributed equally in rewards, team, donations and automatic liquidity.

As a measure of liquidity protection, in the launch of the MEOW token we will start with a 25% commission for the sale during the first 24 hours, we will continue with 8% from day 2 and forever.

6. The minimum range for raising resources for pre-sale will be on average from 250,000 to 500,000 MEOW tokens in pre-sale of the total issued tokens (1 million tokens).

7. The MEOW token will be listed for public sale on PancakeSwap one day after the presale ends.

8. Halls of Xibalba Real Estate purpose: Metaverse of the Mayan Underworld “Halls of Xibalba” has focused on the digital and physical real estate sector. The owners of MEOW Token will have preferential NFT rights to execute staking, as well as preferential access to the property marketplace.

9. What are the Halls of Xibalba?

Roky Neko Crypto Token will leverage the technological and financial development of Mayan Metaverse. Halls of Xibalba is an evolutionary journey through the Axis Mundi (axis of the world) or Ceiba Maya tree. The journey goes from the roots of the underworld, trunk or rooms of the earthly world, to the divine worlds in the treetops.

The Halls of Xibalba project will release a wide range of collections of characters, items for use in the metaverse, play to earn embedded in a story of Mayan mythology, as well as various functionalities for businesses and real estate developers. The divine world rooms in the treetops will have a focus on the natural and architectural beauty of the Mayan world in the Caribbean Sea and jungle. The development axis in the world of the divine will be focused on meditation, health, harmony, relaxation, beauty and joy.

Halls of Xibalba will release a special functionality that will allow the purchase and sale of real estate in the real and digital world through the marketplace.

10. Who are the team members?

The members of our community are a group of creative young men and women from various disciplines. Our team is made up of artists, economists, developers, marketers, among others. Our passion for contributing to society as a powerful technological alternative distinguishes us. The momentum of technological and financial development of the decentralized finance industry we consider is appropriate. That places our culture and business and technological model at the verge of global development of our times.
